

Our Commitment to Sustainability

Walle Corporation is committed to conducting its business activities in a socially responsible manner with due regard to our environmental impact and sustainable growth.

Our Sustainability Mission

- To use today's materials and resources wisely and in such a way that does not compromise our Company's ability to grow well into the future.
- To seek continuous improvements in the sustainable performance of our manufacturing operations by focusing our effort on the 3R's:

Reduce - Recycle - Re-Use

- To play a leading role within our industry by conducting our operations in an environmentally and socially responsible way.
- To meet all local and national environmental, health and safety regulations.
- To develop and offer label products and services that help our customers achieve their sustainability goals.
- To provide our associates with safe and healthy facilities and encourage them to identify ways to reduce waste in their work areas.
- To partner with our customers and suppliers to achieve reductions in the waste stream across the entire supply chain.
- To engage all stakeholders in our sustainability efforts by sharing our sustainable performance and seeking ideas for improvement.
